FASTFIT™

WHAT'S NEW ?

- CoolPlus® woven-mesh back of hand reduces heat buildup while working.
- Abrasion resistant Ripstop material across the back of the fingers providing a water-repellent treated barrier and a comfortable fit.
- Light and breathable neoprene knuckle panel cushions from abrasions while improving flexibility.
- Lock Ring™ printed thumb saddle design wraps high wear areas for increased durability.
- Vented palm heel padding protects from light strikes and vibrations while increasing breathability.

THE ORIGINAL™

WHAT'S NEW ?

- New snag reducing mesh wraps the back of the hand with a single panel reducing additional seams.
- CoolPlus® woven-mesh back of hand reduces heat buildup while working.
- Welded Lock Ring™ grip thumb panel design wraps high wear thumb saddle area increasing durability and reducing vulnerable stitching.
- Welded synthetic leather finger coverings provide abrasion resistance and improved comfort.

M-PACT™

WHAT'S NEW ?

- New knuckle and finger TPR design improves flexibility and dexterity without compromising protection.
- Welded TPR knuckle design integrates a Lock Ring™ pattern around the thumb increasing durability in a high wear area and without the need for vulnerable stitching.
- Water repellent and abrasion resistant Ripstop material lines the back of the hand reducing potential snagging while working in confined spaces.
- AirHammer™ palm padding design wraps around the outside of the hand creating a functional and protective surface.

T/S TACTICAL SPECIALTY

Tactical Specialty

Mechanix Wear Tactical Specialty™ gloves are designed to protect military service members, police officers and SWAT units with specialized hand protection for high-risk scenarios and environments.

The T/S™ tactical glove series ranges from high-dexterity police gloves to mil-spec FR tactical gloves and heavy-duty combat gloves constructed with high-quality goatskin leather.

Cut Resistant

Cuts, punctures, and lacerations are ever present threats in military and law enforcement environments. Protection from these hazards leverage different technologies to perform in the field and in the lab, meeting CE EN 388 and ANSI ratings to deliver 180° blade-cut protection or 360° cut resistance. Reduce injuries with functional cut-resistant work gloves that don't sacrifice fit, feel, and function by trusting Mechanix Wear.

Cold Weather

When the mercury drops the body fights to retain heat, whether you're shoveling the season's first snow or heading to the jobsite when you'd rather be inside. Heat retention is critical in cold work environments, but not just any winter work glove will do. Our Cold Weather gloves provide a range of protection from light insulation to heavyweight 3M™ Thinsulate™ and waterproof glove technology, so you're always one step ahead of the cold.

Realtree Edge™

Hunting comes with a lot of challenges. Being confident you're concealed shouldn't be one of them. Introducing new Realtree EDGE®, the first camo pattern that allows you to blend into your hunting environment at close range, with natural elements arranged in a way to disrupt the human form at a distance.

VISION

SAFETY EYEWEAR

Vision Type-N safety eyewear is built on a lightweight, wraparound frameless ballistic resistant polycarbonate structure for maximum field of vision and comprehensive eye protection. Designed for indoor or outdoor use across various industries and incorporating anti-fogging technology, the Type-N checks the box for both protection and style.

Vision Type-X tactical eyewear delivers MIL-SPEC rated ballistic resistant protection without compromising comfort and style. The full frame design encases dual lenses enhanced with a hard-shell scratch resistant coating on the outside of the lens and an advanced anti-fog technology on the inside creating clear, moisture free visibility when you need it most.
